TATA COMMUNICATIONS

TATA

Built for speed. Ready for AI.

Roundtable discussion | October 25th 2026

Moderated by:

Amitabh Kotwal, VP Solutions Engineer & Customer Success
Tata Communications

#InnovatewithDigitalFabric

Where is complexity creating the most drag on your organization today?

What role is AI playing in your organization today, and how do you see that evolving over the next three years?

For those already moving beyond AI pilots, what changed once you started trying to scale?

In F1, visibility into performance is critical to making decisions in real time. How much visibility do you have across your own infrastructure?

TATA COMMUNICATIONS

TATA

If you could make one change to your network foundation today to improve performance and prepare for AI at scale, what would it be?
